As a top-tier supplier of premium chemical materials for research and industrial use, we cater to science, research, and innovation. Explore our exceptional collection of chemicals designed to support scientific endeavors for both educational institutions and private enterprises. Experience unparalleled choice with our vast selection of over 100,000 molecules in just a few clicks away. With over 25 years of international experience and premium chemicals, we have earned the loyalty of global partners.

Effortlessly search, order, and receive the chemicals you need through our user-friendly Reagentia online purchasing platform. If the chemicals you require are not listed in our portfolio, please contact us. We are committed to obtaining or producing any substances you need, even those not currently available online. While our website allows for ordering substances in smaller quantities, for larger quantities, we kindly request that you reach out to us directly for a specialized inquiry.

Breaking boundaries in chemical sourcing: WE DELIVER WHAT OTHERS CAN'T

Unleash the possibilities of quality chemicals for research, development, and production in private facilities or educational institutions alike. With our expertise and extensive network, we unlock what others cannot, propelling your success. Join forces with us to access a curated range of elusive substances, empowering your projects and unlocking limitless potential.

INDIS Group is an international alliance of synergistic companies united by a shared vision, collaborating to deliver unparalleled global solutions tailored to meet the unique needs of customers in diverse markets.

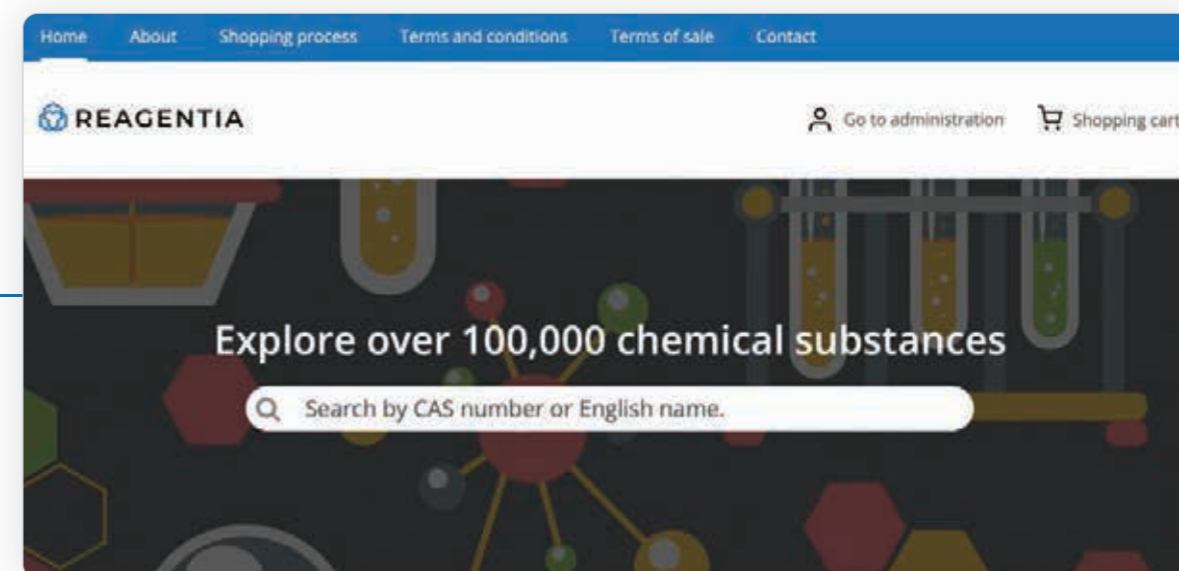

ALCHIMICA, a premier European distributor, delivers a reliable supply of high-quality fine chemicals and nutraceuticals for pharma, food, sports nutrition, cosmetics, and animal feed. With 25+ years of experience, we have a proven track record of successful partnerships with global companies, institutions, and laboratories.

REAGENTIA, a member of the Alchimica Family, is a trusted partner for laboratories, universities, and research facilities. With an extensive online store, it offers a vast selection of high-quality chemicals, materials, and equipment for scientific endeavors. Experience superior service and reliability setting us apart from the rest.

EXPLORE, EMPOWER, DISCOVER ON REAGENTIA.EU

Reagentia.eu is your gateway to chemical excellence! Step into our online purchasing platform, where scientific innovation meets seamless purchasing. Explore our vast collection of high-quality chemicals, meticulously curated to empower your production, research and development and fuel groundbreaking discoveries.

HARNESS ADVANCED SEARCH FOR CHEMICAL SOURCING

Discover instant chemical precision with the advanced search. Effortlessly find the perfect substances by CAS number or name. Say goodbye to tedious searches and unlock breakthroughs at your fingertips. Experience the power Reagentia's online purchasing platform and unleash the potential of your research.
